To: C&C Committee Members

From: John Zack, Chair

Date: March 19, 2024

Re: Minutes of the Curricula & Courses Committee to record electronic vote for March, 2024 items

Committee members who participated: John Zack, Rachael Gabriel, Alex Freidus, Adam McCready, Mike Young, Jaci VanHeest and Ann Traynor

The following items were sent via electronic vote to C&C Committee members on 3/13/24.

- 1) Approval of the February 2024 meeting minutes
 - *The committee voted in favor of adopting the February 20, 2024 minutes.*
- 2) Course Revisions
 - a) **EPSY 5403: Intellectual Assessment (CAR 24-24932)**

Explanation: Removal of prerequisite EPSY 5602 – Educ. Tests & Measurements
Based on feedback from school psychology students, the faculty made decisions to remove some courses that had redundancies with other courses and to reduce credit hours per semester, while maintaining our accreditation standards. The school psychology faculty decided to remove 5602 Educational Tests and Measurements from the school psychology course sequence. Because 5602 is no longer required for school psychology students, it cannot be a pre-requisite for EPSY 5403 Intellectual Assessment.

Current Catalog Copy:

5403. Intellectual Assessment

3.00 credits

Prerequisites: EPSY 5602, which may be taken concurrently, and enrollment in the School Psychology program.

Grading Basis: Graded

Administration of the standard instruments of intellectual assessment and synthesis of the test information into an assessment report.

Proposed Catalog Copy:

5403. Intellectual Assessment

3.00 credits

Prerequisites: Enrollment in the School Psychology program.

Grading Basis: Graded

Administration of the standard instruments of intellectual assessment and synthesis of the test information into an assessment report.

- *All members voted to approve this course revision. (7-0).*
